Notes on *Symbiosis* labeling issues

Because of labeling errors, Volume X(10) was used for all issues of *Symbiosis* in both 1996 and 1998. Volume XI (11) was used for all issues of *Symbiosis* in 1997 and 1999. The Volume number was not reset to adjust the re-use of Volumes X (10) and XI (11). Volume XII (12) was used for 2000 and so on through 2013 which was labeled Volume XXV (25). In this *Index*, the actual Volume number printed on the issues was used for 1996, 1997, 1998, 1999. If you are looking for a specific issue to find an article, it might be most helpful to refer to the year and month rather than volume and issue.

In addition, a few isolated, individual issues were mislabeled during various years. In these cases, the accurate information was used for the *Index*- not the information printed on the issues. In nearly all cases the month and year of the issue is correct.
